

1 PARTNER 1 SOLUTION 1 SOURCE

in Bank Architecture and Construction

THE SINGLE SOURCE DIFFERENCE

When you work with Single Source, you get the type of service you'll only find from experienced experts who are personally invested in your project. **Single Source delivers:**

- **Trust** – Our reputation throughout the industry speaks for itself. Just ask anyone who's worked with us.
- **Personality** – Your construction experience is only as enjoyable as the people you work with. You don't have to sacrifice personality for quality.
- **Experience** – When it comes to knowing what works, nothing counts as much as projects under your belt and years in the business. We've been doing this for decades.
- **Integrity** – The only way to earn your trust, repeat business or referral is to always choose what's best for our client. Doing what's right is not an option for us. It's just the way we do business.
- **Teamwork** – No one knows your business better than you. You're a valuable partner throughout the entire process.

If you're renovating or building a financial institution, you only need a Single Source. Contact us today to get your project started.

Single Source is your 1 partner for architecture, construction and furnishing of financial institutions across Iowa and the upper Midwest. We provide services throughout the entire design and building process, including:

- Pre-design
- Master planning
- Site development
- Architecture
- Project administration and management
- Construction
- Post-project support
- Furniture
- Security
- Signage

We are **Single Source**: Steph Weiland, Architect/Owner, Suzanne Meyers, Vice President of Business Development and Jim Christensen, Director of Sales & Marketing/Owner.
